*icons to all resemble the ones listed on the solutions page
*links that open in separate tabs should open new tab when clicked

Home Page:

Header/Bar is indented and not loading correctly

Enterprise solutions icons are supposed to be icons within the same design as all the web pages but icons that depict the respective topic

Learn more links broken

When you click on a blog - the title gets cut off by the header

Favicon should be black brain

Marketing:

Copy sent, page not updated

Transportation:

"How Paper Entry Works" was supposed to be design icons similar to the ones supplied and supposed to build a flow type chart out of the process flow.

Section after "How Paper Entry Works" supposed to list out applicable documents and screen shot from PaperEntry product.

*Need a blurb about commercial invoices

Delete "placeholder for paperentry screen shot"

Icons to be switched to design ones

Move contact us to opposite side so you can see the brain and remove image.
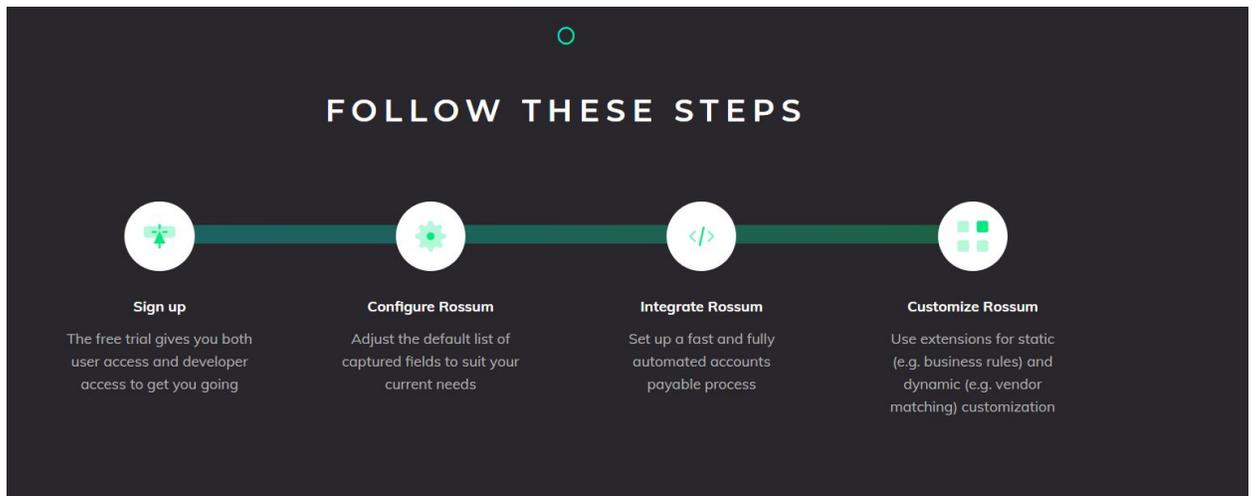

Oil and Gas:

Copy sent

Accounting:

Turn Accounting departments into profit driven and efficiency dedicated departments

All Your Documents in One Place, Automatically. - icons underneath should be the respective style.

"How it works" to be a flow chart.
1. Documents Sent
2. AI data Extraction
3. Deep Cognition's Human Validation
4. TMS/ERP System Direct Integration

Pricing - add color, is there a way to incorporate the two pricing models together so they aren't completely separate? Also delete the filler copy.

Enterprise: (NEW COPY)

  *add business photo similar to how you have done it for accounting, logistics, and oil and gas. Copy will read:

Deep Cognition is dedicated to delivering extraordinary solutions. Are advanced team of engineers can design and develop customized solutions for your dedicated business operations.

*then add a section with something similar to this.

H2 - Artificial Intelligence - Creating an Improved Business Structure.

1. Dedicated Automation: Whether your working with large data and looking for predictive analysis or evaluating business practices we can create your ideal solution.

2. On Prem or Cloud Deployment - Our team prioritizes security and deployment which is why we give all of our clients the option to deploy in the cloud or for applications needing heightened security, On Edge.
3. Renowned Efficiency - Take your business to the next level of efficiency but adding AI to your operations.
4. Increase Productivity - Increase your overall output by allowing AI to complete jobs and tasks rather than your teams.

Add section at the add about Contact US

Platforms:

Include everything from the home page plus the "deployment section" from the current "deep learning studio" page

https://deepcognition.ai/

Deep Learning Studio

Deep Learning Studio - should all be capitalized.
Delete Deployment section
Delete Pricing from "DLS section" and leave as separate section

Deep Learning Studio Pricing:

Update to current format and design

FAQ:

Directly copy from https://deepcognition.ai/products/
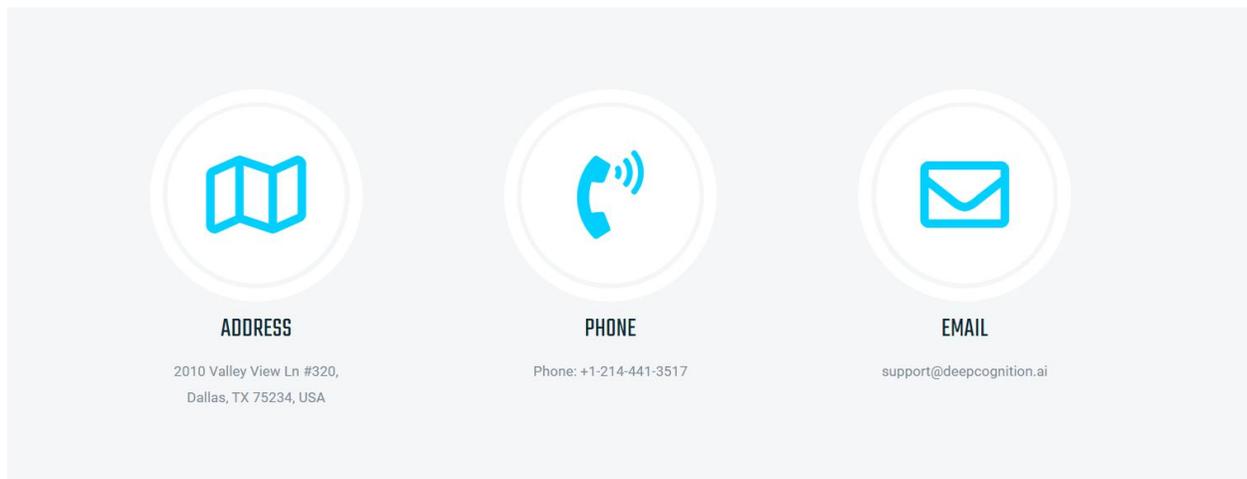

Partners:

Update to copy sent.
Keep the graphics but they are currently rough around the edge, is there a way to fix that?

About Us:

Add contact us section at the bottom that looks like example:

ADDRESS
2010 Valley View Ln #320,
Dallas, TX 75234, USA
